-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

*Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Bihner WO 00/45867.

Bihner discloses an artificial bone comprising calcium phosphate ceramic porous body having pores diameter ranging from 0.01 micrometers to 2000 micrometers and interconnecting pores having diameters of 100 micrometers or more (see page 14, first paragraph). Additionally, see page 7, second paragraph.

Regarding claims 3 & 4, with regard to the method step recitation in claims 3 & 4, it is noted that the method of forming the device is not germane to the issue of patentability of the device itself. Therefore, this limitation has not given patentable weight.

Claims 1-5 are rejected under 35 U.S.C. 102(e) as being anticipated by Lo US Pub. 2003/0171822 A1.

Lo discloses an artificial bone comprising calcium phosphate ceramic porous body having pores diameter ranging from 0.01 micrometers to 2000 micrometers and interconnecting pores having diameters of 100 micrometers or more (the pores are interconnected to each other

and each pore has a diameter from 100 to 500 micrometers, (see ¶ 5, ¶ 7, 15-16, ¶ 26, ¶ 35, ¶ 37, ¶ 42, ¶ 60, ¶ 62).

***Allowable Subject Matter***

Claims 6-15 are allowed.
